

Implementation Plan -The Alpha Breathwork Recovery System

A Daily Mental Recovery Blueprint for Men Over 40

Phase 1: Learn to Breathe Properly (Week 1)

Daily Practice

5 Minutes

Diaphragmatic Breathing

1. Place one hand on chest
2. Place one hand on belly
3. Inhale through the nose
4. Expand the belly first
5. Exhale slowly

Goal

Train the diaphragm.

Create awareness.

Phase 2: Add Deep Breathing (Week 2)

Daily Practice

10 Minutes

Pattern:

- Inhale 4 seconds
- Hold 2 seconds
- Exhale 6 seconds

- Hold 2 seconds

Repeat for 10 minutes.

Goal

Improve relaxation.

Increase oxygen exchange.

Lower stress.

Phase 3: Build Tactical Focus (Week 3)

Box Breathing Protocol

Repeat:

- Inhale 4
- Hold 4
- Exhale 4
- Hold 4

For 5–10 minutes.

Use before:

- Important meetings
- Difficult conversations
- High-pressure situations

Goal

Train calm under pressure.

Phase 4: Introduce Power Breathing

3 Rounds

30 deep power breaths

↓

Exhale fully

↓

Hold

↓

Recovery breath

↓

Repeat

Goal

Increase energy

Enhance focus

Improve resilience

Daily Alpha Recovery Routine

Morning

Gratitude Journal

5 minutes

Meditation

5–10 minutes

Breathwork

5–15 minutes

Total Time

15–30 minutes

This becomes your mental recovery system.

Weekly Breathwork Scorecard

Recovery

- ☐ Practiced breathwork daily
 - ☐ Completed 5+ sessions
 - ☐ Reduced stress levels
 - ☐ Improved sleep
-

Performance

- ☐ Improved focus
 - ☐ Better decision-making
 - ☐ Increased energy
 - ☐ Better workout recovery
-

Mental Health

- ☐ Lower anxiety
 - ☐ Improved emotional resilience
 - ☐ Better mood
 - ☐ Increased self-awareness
-

The Alpha Breathwork Framework™

Breathe

Learn diaphragmatic breathing

Recover

Activate the parasympathetic nervous system

Focus

Use tactical breathing under pressure

Optimize

Improve hormones, sleep, and recovery

Lead

Show up stronger for your family and community

Quote From This Presentation

"Mental recovery is just as important as physical recovery. Breathwork gives you a tool you can use every day to become calmer, stronger, healthier, and more resilient." — Funk Roberts

Key Takeaway

Most men spend decades training their bodies.

Very few spend time training their nervous systems.

Breathwork bridges that gap.

It costs nothing.

It requires no equipment.

And it may be one of the most powerful tools available to improve:

- Stress management
- Recovery
- Focus
- Testosterone
- Sleep
- Emotional resilience
- Longevity

For men over 40, learning how to breathe properly may be one of the highest-return habits you ever develop.
